

-2-

The importance in getting this done soon is that I expect to be in contact with Omar Garrison about doing the biog very soon. And will have to have all the documentation for him once he's ready to go.

The importance in getting the biography out becomes greater all the time.

I have lined up someone to help me with xeroxing as I go through files in CW. This will make it a relatively fast cycle. (see attachment 3.)

I have an appointment here on 16May which is very important but will be free after that and propose going to CW on 17 May.

Someone will be here by then who can take care of any of the things I'm covering on the Legal Msn, and if not I'll delay. But it is almost certain; thus I'm making these plans now.

I have money approved for this project.

What is needed is each of your approvals on the attached PJO's.

SOLUTION: Approve the attached Project Orders; carry them through to full success.

This is OK

MLV

Gerry

Lines for approval on the PJO's attached.
